CHRIS / BASEMENT EXAMPLE

A room worth coming home to.

Movies, music, games and good company.

BEFORE / AFTER THE SECOND FLOOD

YOUR ROOM, REIMAGINED

What you asked for

A fresh start after the room's second flood: six comfortable movie seats, a place to record with a guest, space for games and a music corner for Chase.

Keep the good stuff

Build around your TV, cream-and-rust rug, game table, Boston artwork, three guitars and cream stools. Give the blue Ducklings table a home by the music wall.

YOUR PRIORITIES

Six reclining seats · Two-person podcasting
Music + games · A $3,000 merchandise plan

AI-assisted visualization. The $3,000 covers furnishings; paint, flooring, installation, tax and delivery are separate. Optional additions are on page 4.

The design, at a glance

Your colors, layout and finishing touches.

Cherished

Your mood board

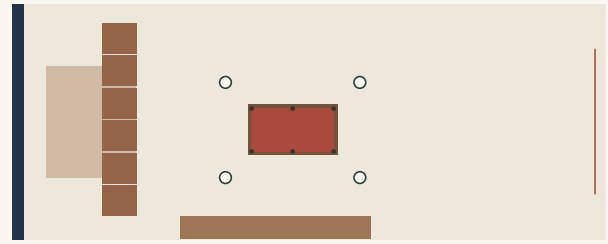

Navy, warm wood, leather and cream: a guide to repeating color and texture throughout the room.

The theater wall

Frame the screen with Boston art and Kramer. Keep the rug beneath the central seats, ending before the posts.

How the spaces connect

Stairs above · Podcast alcove below

Approx. 53 x 21 ft; ceiling 7.5 ft. White dots mark the four posts. Measure the posts, doors and furniture before buying.

Why it works

Repeat warm contrasts. Navy grounds both the TV and stair/game walls; cream and oak keep the room welcoming.

Create useful zones. Keep recording equipment and cue strokes out of the walking route.

Layer light and stories. Lamps, family photographs, Boston memories and Chase's music make this your room.

Sample placement assumptions: verify posts, doors and full-recline clearance before ordering.

Your $3,000 shopping plan

Buy the essentials first. Optional styling stays on page 4.

Your plan, step by step

Measure, buy, arrange, then make it feel like home.

STEP	TIME	INSTRUCTIONS
1. Confirm the room	45-60 min	Measure all four posts, doors, TV wall, alcove and table. Confirm the room is repaired and ready. Keep closet access clear.
2. Test the furniture fit	45-60 min	Tape six 33.1 in seats in a gentle curve. Their combined width is 198.6 in before curve/gaps. Check manufacturer recline depth and power access.
3. Test games + recording	30-45 min	Try cue strokes around every post and both air-hockey ends. Place two chairs beyond the shallow alcove; test camera and light positions.
4. Confirm and order	30-45 min	Use page 3 and the music shortlist. Confirm trade prices, chair returns, frame sizes and stock. Stay within the supplies reserves.
5. Install + assemble	Half-day+	Arrange any counter removal separately. Follow panel instructions; mount guitar hangers into structural support. Keep cables out of routes.
6. Style and try it out	60-90 min	Hang art, add the table lamp and place two owned stools at the music wall. Test all six seats and record a short conversation before buying extras.

Hands-on estimates only; delivery and contractor work are separate. The rug ends before the posts and sits under the central seats, not all six.

One revision is included, if needed. Email your changes together to support@cherishedrooms.com within 7 days.

A conversation worth recording

A comfortable two-person set with a warm, personal backdrop.

Cherished

Podcast alcove concept • Final dimensions and equipment fit to be confirmed

Start with what you own

Use the iPhone and Mac. Confirm whether you have two Yeti microphones, then test a short two-person recording before buying more audio equipment.

Leave room to record

The recess is about 2 ft deep. The 31.5 in chairs project into the room. Allow space for the camera, lights, legs and an unobstructed walking route.

Two chairs / $367.98

Table / $59.99

Light kit / $139.99

Tripod / $25.95

Wood-look panels add warmth but do not soundproof the room. Test chair comfort and noise. Shelves, plants, counter removal and microphone stands or adapters cost extra.

Chase’s music. Everyone’s games.

Personal touches that make this a room you use.

Cherished

Three guitars + two owned stools

Keep guitar removal clear of frames. Use the Ducklings table + lamp here; bench is optional.

Navy behind the games

Preserve the stair carpet and recesses. Test table orientation and cue strokes between the fixed posts.

Movies, music and room to play

YOUR PALETTE

Navy · Walnut · Leather · Cream · Black

Take a photo of this page when you shop. Compare color and texture in the room’s own light.

KEEP / REUSE

TV, rug, stools, guitars, game table and Ducklings table. Give each activity enough room before adding decor.

BUY NOW / FIRST PHASE

The $2,980.85 allocation depends on the reported $1,654.98 trade price for six recliners. Reconfirm eligibility and the quote; retail may raise the total.

ADD LATER / ONLY IF USEFUL

Add the framed photo gallery, picture lights, greenery, shelves or bench only after testing movie nights, podcasting and game play.

BEFORE YOU BUY OR PLACE

- [ ] Tape the six-seat layout in full recline; verify posts, doorways and the route past the TV area.
- [ ] Test pool-cue strokes and access at both ends of the game table before fixing the layout.
- [ ] Check podcast lighting and phone stability; attach guitar hangers to suitable structure.
