A little of your story

Keep Davis Dr. Bring in family photographs and your FSU connection.

Keep your cream rug. Optional additions are on page 4.

STEP	TIME	WHAT TO DO
1. Measure before buying	25-35 min	Measure sofa height, console opening, doorways and pillow inserts. Tape furniture outlines on the floor. Aim for a clear 36 in main route.
2. Order the budget items	20-30 min	Use page 3. Confirm size, finish, total and delivery. Order ONE ottoman set, not two sets. Keep optional items separate.
3. Clear space; assemble	2-3 hours	Relocate needed work equipment first. Then remove the desk and old picture. Follow furniture instructions and required anchoring. Get help with heavy pieces.
4. Put the furniture in place	25-40 min	Server on the desk wall; console behind sofa. Try the small table at the exposed arm. Test doors, walking space and seated reach to drinks.
5. Hang art and set up lamps	50-75 min	Hang the trio 6-8 in above the server, about 2 in apart. Replace white lamp shades with the beige pair; dry-fit for bulb clearance.
6. Add textiles and toys	15-25 min	Pair blue + terracotta at each sofa end and in the corner. Add the throw. Keep Bennie's bed and toy basket outside the walkway.
7. Try the room	15-20 min	Enjoy the budget pieces before buying extras. Save fitted window shades for your next home. Try the work setup on page 7.

Times are hands-on estimates; delivery and any hired installation are separate.

One revision is included, if needed. Send changes together in one email to support@cherishedrooms.com within 7 days of receiving your report.

Designed for Bennie

Comfort for him. Practical choices for your home.

Cherished

His napping place

Keep his familiar bed near the family, clear of doors and the main route. Put the toy basket beside it, where tidying up is easy.

A sofa made for snuggles

Use a washable cover over his favorite cushion. Keep tall, fragile accents and loose cords away from his tail and play path.

Protect the sofa

$69 · CozyBliss

50 × 60 in; one lounging zone, not the whole sectional.

A future bed upgrade

$61.44 · Amazon

40 × 32 in footprint; check his stretched sleeping size.

An easy toy tidy

$24.99 · Fine Living Co.

15.8 in wide; place beside his bed, outside the route.

All three are optional. His current bed, basket and a cover you own work beautifully for now.

One console, two useful jobs

Drinks, flexible use and occasional work.

INCLUDED IN YOUR $750 PLAN

A useful surface

Buy for $186.99 at Wayfair

Keep a clear drinks area. Test seated reach; the reused side table serves the exposed sofa arm.

One set, two different sizes

Buy for $95.99 at Amazon

Larger: 14.76 × 17.32 in; smaller: 12.6 × 14.17 in. Occasional perch + footrest/storage; check seat rating and console opening.

An occasional work spot

Face the sofa, with the server and art behind you. Move the ottomans aside for the chair and laptop.

This 35.4 in console needs a taller adjustable chair with a footrest, sold separately. Use the low ottomans for relaxing.

Check knee room and leave space to walk behind the chair.

For later: a second console and two different-sized ottomans, $282.98. Check the seat ratings and furniture fit before buying.
