A guide to the colors, textures and finishes that tie all three room views together.

Where everything belongs

Place the full tree between the nativity cabinet and upright piano. Set the red bench by the bookcases. Add garland to both bookcases and a wreath behind the grand piano.

Why it feels collected

Repeat burgundy, blue and gold in small doses. Mix soft velvet and greenery with polished wood and warm metal. Keep treasured pieces visible, with quiet space around them.

Sample placement assumptions: verify tree footprint, ceiling height and radiator clearance before buying.

Set it up, step by step

A relaxed afternoon, with time to stand back and enjoy it.

STEP	TIME	WHAT TO DO
1. Check what you have	20 min	Unpack the full Lenox nativity; measure its display footprint against the cabinet. Gather other decorations and reuse what fits.
2. Measure and order	30 min	Check the 61 in tree footprint, ceiling, outlet and radiator clearance. Confirm stock, total delivery cost and battery needs before buying.
3. Place and fluff the tree	45-60 min	Place the tree at the window and the red bench by the bookcases. Fluff branches, test lights and keep the piano accessible.
4. Add ribbon and ornaments	45-60 min	Follow page 6. Start with bows, then blue, gold and burgundy. Step back after each layer so branches still show.
5. Style both sides	45 min	Give the nativity its own clear cabinet surface. Add garland to BOTH bookcases, the window wreath, mantel and low table arrangement. Keep both pianos usable.
6. Make it comfortable	15 min	Sit in both seats, walk to the piano and check cords. Remove anything in the way; photograph the arrangement for next year.

About 4 hours of hands-on time, plus shopping and delivery. Keep glass ornaments and button batteries away from children and pets; use flameless candles near greenery.

One refinement is included if needed: email your changes together to support@cherishedrooms.com within 7 days of receiving your report.

A tree with a little rhythm

Blue, gold, velvet and a nod to the music you love.

Cherished

Begin with the bows

Make 8-10 loose tree bows. Stagger them gently; keep tails modest. Reserve ribbon for each bookcase and a generous bow on the window wreath.

Then add the shine

Start with 24-36 blue, 24 gold and 12 burgundy balls. Use matte and shiny finishes; keep glitter aside. Tuck some deeper into the branches for depth.

Finish with a story

Add the two violin ornaments high on the tree. Write favorite carol titles on ivory gift tags; tie them with leftover ribbon. Six folded-paper stars bring a quiet handmade note.

Violin · $21.99 each

Ribbon · $9.95/roll

Finish with a ribbon bow on top and a neutral cloth around the stand. Keep the tree stable and allow space around its 61 in width, away from the radiator.

Treasured finishing touches

The nativity, window tree and mantel share one Christmas palette.

THE CHRISTMAS MANTEL / OPTIONAL GOLD TV FRAME SHOWN

Your treasured nativity

Give your mother's Lenox set the cabinet to itself. Protect the surface and keep her ivory figures well inside the edge.

A mantel dressed to match

Lay pine garland along the mantel with warm lights and burgundy bows. Add spare blue and gold ornaments. Alternate ivory and burgundy stockings; reuse your nutcrackers at the ends. Keep the screen clear.

Keep the room comfortable

Leave the piano route open beside the red bench. Keep the coffee-table greenery low, with two LED votives and space for a cup.

Reuse your nutcrackers and check garland length and stocking holders. Keep the fireplace off while decorated; remove flammable decorations before use. The gold TV frame is an optional extra.
